

WELCOME TO SAFE WORK MONTH! IT'S EVERYONE'S TERRITORY.

Let's come together to make safety a top priority at work. When we raise awareness and understand the importance of safe practices, we can make a real difference in reducing work-related injuries, illnesses, and fatalities.

Here are some ways you can get involved in Safe Work Month:

- Display our posters: Print and put up our posters during October.
- Use social media: Help spread the message! Share our website banners and social media tiles while also using #safeworkmonth.
- Use our email signature: Consider using our special signature for October.
- Video call background and desktop wallpaper: Promote safety by changing your background during October.
- Host a workplace event: Events are a great way to talk about safety. Download our guide on how to get involved for event ideas and share your event photos with us at worksafe@worksafe.act.gov.au.

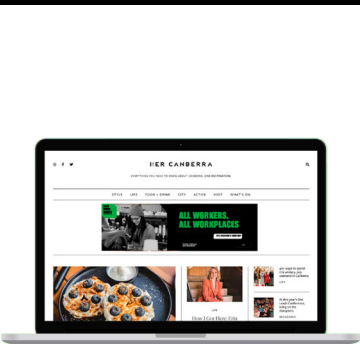

Let's make every workplace safe for everyone.

Thank you for your commitment to health and safety.

Together, we'll make this Safe Work Month count!
